

## My Rising Stars

### Reading Planet – Reception - Year 6

We fully appreciate that nothing beats the feel of a real book, however, the books available to your child online through Reading Planet are fully matched to our school's reading system. They are book banded, and this helps teachers to track progress and continue to move the development of your child's reading forward. There are also fun quizzes for your child to check that they have understood what they have read.

**It is really important that your child continues to read on a daily basis from their school online reading book.**

Teachers will check children's reading books and allocate a new book when necessary:

EYFS/KS1 – Monday, Wednesday and Friday

KS2 – Monday and Thursday

If you have any concerns or questions please contact your child's teacher on their class email.

### Cracking Comprehension – Year 1 - Year 6

This resource allows children to practice key comprehension skills and measure the progress of their understanding. These will be allocated by your child's teacher each Monday.
